

# For a "Clean Cut" your Carve-out process needs sharp tools!

© BESTBRK / ISTOCK

**Our digitized tool case provides new possibilities within Carve-outs: „Slice&Dice“ fundamentally improves data quality and equally accelerates speed of the transaction.**

## Your challenges

You want to adjust your business portfolio via Divestments and Carve-outs in an effective as well as efficient manner? It is your utter entrepreneurial endeavour to create space for strategically more promising business segments?

Therefore, divisions, (business) units or single investment objects have to be sliced out from existing corporate structures. Starting from initial design to effective separation there is the need of experts executing clear cuts resulting in seamless processes. We support you to set yourself apart from the competition in a distinctive manner.

## Our solution

We have catalyzed our longstanding experience in Carve outs within *Slice&Dice*, the sharpest of our transaction blades. *Slice&Dice*, based on Power BI and LucaNet, equally reduces complexity as well

as duration of Carve-out projects:

- Holistic & rapid processing of large datasets up to transactional data arising from diverse sources
- 360-degree analysis for Carve-out matters, e.g. Carve-out financials
- Substantial time savings & flexibilization of processes related to actualization of Carve-out financials
- Identification of data patterns („Mapping“)
- *Slice&Dice* as „Platform-as-a-Service“ (PAAS): Intuitive „Out-of-the-box“ solution enabling rapid implementation of divestments

## Our additional services

Besides our digital solution we do, as a matter of course, support you with our experience and track record. Your project will be structured with razor-sharp focus in a low-risk manner in order to secure a successful “Day-1”.
