Care groups or care centers watch out: With PKF Care we offer you a tailored solution that will save you valuable time and provide you with detailed insights into your operations.

Customized Key Figures

Do you know what drives your revenue or costs? Do you have crucial key figures for the best care treatment and successful business operations constantly in sight?

PKF Care's fully automated reporting, based on LucaNet's reliable financial software, enables direct analysis of planned and actual data, in addition to displaying P&L, balance sheet, cash flow and projections. Best of all, PKF Care includes industry-relevant key figures, including.

- Residents
- Occupancy days
- Specialized staff ratio
- Occupancy according to degrees of care
- Itemized personnel and non-personnel costs as well as revenues

Customized Reporting

PKF Care thus effortlessly delivers the most important key figures of your care operation and presents them graphically. Elementary effects can immediately be identified in a visual way.
